

Drain Rite™ Accessories

Drain Rite Connections

Drain Rite connection accessories are made from the same lineal, heavy-wall one piece materials as our Drain Rite. All connections feature obstruction free water flow, because they use outside couplers.

Drain Rite connection accessories are available in all five colors, including the only marble colored PVC drain in the industry.

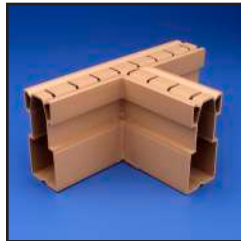

- All fittings are non-directional, requiring less combinations to be stocked to achieve your design
- Designed to set flush against walls and porches
- Locked into the concrete by inside key ways that stop the flow of water to the subsoil

Drain Rite Spouts, Caps and Covers

Drain Rite spouts, caps and covers are made to complete your drainage system. All spouts feature our unique “obstruction-free” water flow by connecting to the outside of the drain. Drain Rite spouts, caps and covers are available in all five Drain Rite colors.

- Drain Rite Spouts are available in End, Straight, and Down configurations. All spouts connect to standard 1^{1/2} inch PVC pipe for carrying away water.
- Drain Rite End Caps are perfect for closing a drain end decoratively.
- Drain Rite Clean Out Covers are a great way to allow access for internal flushing and rinsing.
